

Version: [Portuguese](#) - English

The interdisciplinary Professional Masters in Regulation and Business Management - REGEN is a stricto sensu postgraduate program, composed by a board of renowned academic professors and highly achieved professionals who work in the many specializations areas covered by the program. REGEN is based upon two premises: First, an academic course of this nature should be characterized by a solid and comprehensive theory formation, combined with a constant objective of applying the theory concepts into real practical solutions. Second, studies in these areas can only be done effectively in conjunction with interdisciplinary elements present in many disciplines such as; Business Management, Accounting, Law, Economics and Engineering
